

1138 Enabling Freddie Mac Loan Product Advisor System-to-System

To setup the Freddie Mac Loan Product Advisor system-to-system interface to run within Point:

Note: This article applies only to the Point Admin.

1. Select **Utilities > Company Defaults > Freddie Mac System-to-System**.
2. Enter your company's credentials in the applicable fields.
3. Click **OK**.

Seller Service Number: A Freddie Mac-assigned number that indicates a company is approved to do business directly with Freddie Mac.

NOTP Number: A Freddie Mac-assigned number for non-originating third parties and Mortgage Service Providers that access LPA directly.

TPO: A Freddie Mac-assigned Third-Party Originator (e.g., brokers) number for accessing LPA directly. There is a generic TPO# of 121555 that can be used if not issued a unique one.

Note: For information on restricting access and setting security levels refer to knowledge base article 6014 Setting access rights and securing data folders.

Refer to [Freddie Mac's Transition Guide](#) for information on requesting new credentials.
